

Global Product Launch: XCURA Evo **Next generation EC process series for LED + Low energy**

We are pleased to introduce our new innovative process series **XCURA Evo**.

XCURA Evo is formulated based on Flint Groups new platform technology for EC sheetfed products and specially designed to give the highest possible consistent LED / Low energy performance. Special attention was given to product rheology, user handling, stability, gloss levels, damper build up and efficiency.

The benefits of XCURA Evo:

- Improved duct flow properties with and without agitators
- Low damper build up
- Low waste and improved make ready performance
- Quicker speed to flat line control
- Excellent transfer properties
- ISO i2647-2 compliance
- Improved gloss
- No yellow dirtying effect
- Excellent curing and marking resistance qualifies XCURA Evo for perfecting presses as well

XCURA Evo - Product Overview:

XCURA Evo Process; Yellow
XCURA Evo Process; Magenta
XCURA Evo Process; Cyan
XCURA Evo Process; Black

Available in: 2,5kg plastic pails, 2kg plastic cartridges and other packs available upon request.
